Standard IRB Fees for Industry Funded Studies.

The following charges will be included in contract budgets for industry funded studies (funded by drug or device manufacturers or other for-profit sponsors):

\$3,000 for initial review, \$500 each for sponsor initiated amendments, \$500 each for continuing reviews. The fee applies regardless of whether a convened meeting or expedited IRB review (including expedited review conducted by subcommittee) is involved.

RFMH shall have the discretion to waive, in whole or in part, IRB fees for investigator initiated studies when the sponsor is unable to pay the fees.

Studies that are fully and directly funded from the following sources shall be exempt from payment of IRB fees:

- Federal government
- New York State
- Non-profit foundations and other non-profit entities that do not permit payment of such fees
- Donated/gift funds
- RFMH internal funding

Issued 4/7/08, clarified 10/28/14
